

Feed Bunks

SI Precast Concrete feed bunks are available in J-bunk and H-bunk styles. Bunks are manufactured with 5000# psi concrete and reinforced with 1/2" rebar and 10 gauge wire creating a concrete feeder that is durable and long lasting. Ends are available in both J and H styles. All bunks are manufactured in one piece with attached legs.

SI Precast Concrete feed bunks are low maintenance and stronger than their steel counterparts.

H Bunk

J Bunk/Fence Line Feeder

These may be the last fence line feeders you ever purchase!

Type	Stock Number	Length	Width	Height	Weight
J Bunk/Fence Line Feeder	724012	96"	30"	24-32"	2,100
