

Freeze Proof Water Tanks

SI Precast Concrete freeze proof water tanks are manufactured from 5,000# psi concrete with tapered sides for added strength. Tanks are equipped for gravity or pressure fed systems and are available in 100 and 200 gallon capacities, and the new two-sided, 200 gallon waterer.

SI Precast Concrete water tanks are low maintenance, provide fresh water for your livestock in sub-zero temperatures and are ideal for pond or spring development or connected to well or rural water supply.
